

2026 NSFRC Candidate Guide

Ashley Carrube

Candidate for Director (2026-2028)

Email: Rawhideranchrex@gmail.com

ARBA #: GRANAS01

Candidate Statement

Hi Foxy Fam!

I would like to respectfully submit my petition to run for a Director position with the National Silver Fox Rabbit Club.

Silver Fox rabbits have been my heart breed for several years, but this past year has brought a whole new level of involvement for me. As I continue expanding and refining my herd, my focus has been on improving the quality of the animals I produce and being able to share purposeful Silver Fox with others. Through my involvement with the West Coast Silver Fox Club and the breeders, exhibitors, and youth I have met along the way, supporting this breed has truly become one of my biggest passions.

My biggest dream for the breed is to one day see a Silver Fox win Best of Breed at ARBA Convention, and when that day comes, I plan to be the loudest one in the cheering section!

Youth involvement is especially important to me. I have been grateful for opportunities to support youth breeders by placing promising animals, sponsoring show sanctions and awards, and offering to fund NSFRC and local club memberships for youth or new breeders who show genuine interest in the breed. I believe one of the best things we can do for the future of Silver Fox is help new breeders feel encouraged, supported, and connected from

the beginning. Having a big win is great to get someone hooked, but having a sense of community and purpose is what keeps people involved.

I believe our breed is strongest when we work together. Sharing animals, mentoring new breeders, cheering each other on, and helping new and youth breeders fall in love with Silver Fox are all part of what keeps this breed moving forward. I would love to help support a club culture where members feel welcomed, respected, informed, and heard, and where kindness and good sportsmanship matter just as much as the wins.

The Silver Fox breed has come such a long way, and we have a real opportunity to keep that momentum going. I would be honored to serve the NSFRC as Director and help support the future of the breed and the people who love it.

Respectfully,

Ashley Carrube
